Located in the village of Askett which nestles at the foot of the Chiltern Hills, Crocketts Gates is a family run business who have been making bespoke handcrafted gates since 2005.

We make all our gates and garage doors by hand and use ethically sourced softwood and hardwoods to ensure our gates and garage doors meet the highest standards and comply to industry regulations.

Bringing good design, the best materials and peace of mind. A gate from Crocketts is guaranteed to be of the highest quality. From our fully equipped workshop every gate we produce is tailor made for our customers.

# GATES AND GARAGE DOORS HANDMADE NATURAL BEAUTY

## Softwood Gates

Our softwood gates are made from responsibly sourced Scandinavian Redwood. The timber we choose is of the highest quality and provides unrivalled strength and durability.

The pressure treatment given to all our softwood gates provides the timber with a natural looking green hue which, over time, fades to a soft silver tint.

Scandinavian Redwood gates are a fantastic, cost effective way to enhance your garden or property entrance. All designs can be created in softwood and be crafted for automation if required.

## Hardwood Gates

We use Iroko hardwood for our bespoke hardwood gates; Iroko is very popular for outdoor use including boat building, as it is strong and durable. It requires regular oiling to maintain the golden hue. Because of this maintenance we believe it's the best type of wood for gates.

## GARAGE DOORS

With our many years' of experience, Crocketts are the people to go for your new garage door. Our doors provide the strength, durability, and security that you need to keep your family and possessions safe and secure. What's more, our doors can be created with or without glazing.

As with our range of gates, all of our garage doors are handmade and bespoke to you. Each one is carefully mortised, tenoned, framed, ledged, and braced to give years of use, as well as peace of mind from a security perspective. Whilst the majority of our work is designed around your ideas, we also have a standard range of garage door styles for you to choose from.

Our bespoke garage door service is ideal if you want to match an existing door, a door of unusual shape or size, or simply fit a beautiful garage door that will be in keeping with your property and surroundings.

## SOFTWOOD GARAGE DOORS

All of Crocketts' softwood garage doors are hand made from the finest and most responsibly sourced Scandinavian Redwood timber, giving you peace of mind that the garage door you purchase is of the finest quality, highly durable and long-lasting.

Our garage doors are a fantastic addition to any property wanting a traditional garage feature, however, we can add modern touches to all of our garage doors, including glazing, locks and ironmongery for additional security and control.

## HARDWOOD GARAGE DOORS

If you've been struggling to find the right sized garage door, give us a call. All of our hardwood garage doors are bespoke to you, and manufactured from responsibly sourced Iroko.

Our beautiful garage doors have given us many happy customers over the years, many of whom are repeat customers. The personalisation and craftsmanship that goes into each of our hardwood garage doors is what makes us special and makes our products stand out.

Contact us for more information as we always have wood samples for you to view.

## GATE AND GARAGE DOOR STYLES

At Crocketts Gates we believe in offering our customers a choice. From the choice of wood, depending on the intended use, the wood treatment to retain its durability, and to the design and style. From our traditional range of gates, for both front and side entrances, to the more elegant and larger scale of styles for driveways and garage doors.

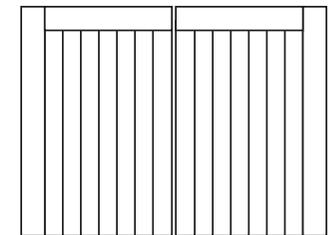

With the wide range of gate designs and construction options that we offer, we hope that you find a design and style suitable for your needs. All our gates can be made as a single gate or a pair of gates.
